Master Of Technology
ABV IITM, Gwalior
2015
Scored: 8.1 CGPA

Senior Secondary
UDPS, Dholpur
2010
Scored: 91%

WORK EXPERIENCE

UI/UX Developer, Product Designer

Frrrole, Inc. | Apr 2014 - Present

Designed and developed two core products of Frrrole and various applications and dashboards for clients (Flipkart, Maxus, Zee, MindScan, Times of India, Times Now.)

Frrrole Scout, I did the UI/UX development of this social and audience listening dashboard and was promoted to its Product Owner. Key features includes web based **data visualizations** using **High-charts and D3.js**, responsive using bootstrap, real time alerts to users, daily email of user activity summaries and data export to PPT and Excel.

DeepSense which is an AI based tool for candidate evaluation at scale by providing behavioral and psychographic profiles. Developed this dashboard using **Angular 5, Material 2, SASS preprocessor, PHP/ MySQL** as middle layer and **Stripe** for payments. Also developed a **chrome extension** providing quick candidate analysis.

Developed a **plugin for FreshDesk**, using their SDK offering users to know there customers better by providing customer's behavior, demographics, social handles, spoken languages.

Redeveloped Frrrole's **website twice** in my course of work.

UI Developer

Corporate Entry Consulting | Jan 2014 – Feb 2014

Designed and developed the website and admin panel for a Delhi based firm, Corporate Entry Consulting.
